

**REMARKS**

Applicants gratefully acknowledge receipt of the Notice of Allowance, including the Examiner's Amendment in the present application. In reviewing the claims prior to payment of the issue fee, the Applicants' representatives have noted that antecedent basis was missing for terms in four of the claims, and have therefore made the following amendments in order to correct this informality.

Specifically, in claim 34 Applicants have replaced the term "exam module", which lacked antecedent basis, with the term "examination location", which does have such basis. In dependent claim 35 term "information with an eye exam console", which lacked antecedent basis, is replaced with the term "eye examination data", which does possess such basis. In claims 45 and 50 the term "one of the at least one remote exam modules" is replaced with the term "eye examination location" or "the eye examination location" for reasons similar to those underlying the amendment to claim 34.

These amendments do not involve the addition of new matter, and do not change the claimed subject matter or broaden or narrow the claims, and therefore Applicants believe their entry is appropriate.

D-2998

Appl. No. 10/087,697

Should any matters remain unresolved, the Examiner is requested to call applicant's attorney at the telephone number given below.

Respectfully submitted,
